### LOCAL BOY WIN SCHOLARSHIP

Joe Lieskovsky, of Blaimore, and Miss Avis Horning, of Cowley, were successful in winning scholarships for free tuition in the Banff School of Fine Arts, conducted in Banff under the auspices of the Provincial Institute of Technology and Art, in co-operation with the Department of Extension of the University of Alberta, from August 3rd to August 21st. This school will be conducted in co-operation with the School of Drama and Music.

Mr. H. G. Glyde, A.R.C. A. (London) will direct the school. He will be assisted by Miss Nan Lawson Cheny, McGill University, and Mrs. L. E. Pearson, B.A., A.S.A., of the Institute of Technology and Art.

**GOLF! GOLF!**  
On Saturday, July 4th, the ladies held their nine-hole competition, with a very encouraging turnout—sixteen players—taking part. The best score was turned in by Miss R. Duncan with a net score of 32. The next ladies' competition will be on July 18th, eighteen holes, for the regular monthly prize.

In the men's elimination, the matches are advanced to the second round. Players have until Sunday afternoon, July 12th, to get their matches played before the third round starts.  
Don't forget the regular mixed foursomes on July 16th, at 2 p.m. prompt.

### LOOKS LIKE INTIMIDATION

Hon. Lucien Maynard, minister without portfolio in the Aberhart government, addressing a meeting in Vegreville, is quoted as saying: "Retailers and wholesalers who say now they won't accept scrip will be forced to do so in order to hold their business. They will see the extra business going to firms who do accept the scrip, and they will have to fall in line or go out of business."

Baize Eddy, for many years a farmer in the Lundbreck district, has disposed of his farm property, and with his family will take up temporary residence in the Creston district.

### HIGHWAY FATALITY

William Watson, sixteen-year-old son of Mr. and Mrs. A. Watson, of Bellevue, met instant death on Wednesday evening at a point about one mile east of Bellevue when hit by a car said to have been driven by Gordon Steves, Blaimore druggist.

Watson was riding a bicycle in the direction opposite that in which the car was travelling. It is believed that, meeting the car, his cycle hit a stone or some other object, swerving the machine towards the car, and making it practically impossible for the car to miss him, even though travelling at a moderate rate of speed.

Police and doctor were called to the scene, and the dead lad was removed to the undertaking parlor at Blaimore.

Coroner Turner deemed 'an inquest advisable, and a jury has been impaneled. After viewing the scene and the remains of the victim, adjournment was made to Monday, when the inquest will proceed.

It is stated that, as far as is known, there were no other witnesses to the accident than the two occupants of the car.

### ATTENTION OF GOVERNMENT

DIRECTED TO PASS HIGHWAYS

Following is copy of a resolution passed by the town council of Blaimore and Coleman and submitted to the provincial government on Tuesday:  
'Hon. W. A. Fallow, Minister of Public Works, Edmonton, Alberta.

Dear Sir: We, the Councils of the Towns of Blaimore and Coleman, wish to draw your attention to the state of the roads through the Crow's Nest Pass.

This is the Main Highway through the southern part of the Province, and is in need of immediate repair.

We notice road work is planned between Waterton Park and Calgary; also Red Deer to the Banff-Jasper highway. No doubt these roads are considered essential, but you should bear in mind that American tourists must pass over the local roads to arrive at Waterton, if entering the country via Kinggate. Contemplated roads would appear to be for the convenience of tourists, while Pass roads are in use for twelve months in the year.

The R.C.M.P. compiled the following figures, which may interest you: Number of cars which passed their barracks May 25th, 8 a.m. to 11 p.m. 1936; and on May 30th during the same hours, 1461.

We consider that residents of the Province should receive consideration as well as tourists. Local business men are complaining at the lack of tourist business, due entirely to the state of the roads.

E. O. Duke, M.L.A., was approached on this subject, and gave us his assurance that he would endeavor to have the road from Macleod to the British Columbia border oiled, or treated by some means for dust. This may be too expensive a programme for this year, but we do request that the road from Coleman to Maple Leaf (east of Bellevue) be treated.

This is an industrial field, which produces considerable wealth from natural resources. We trust this matter will receive your very earnest consideration.

Yours truly,  
Town Councils of  
Blaimore and Coleman,  
per Secretary-Treasurers.  
—July 6, 1936.

After being more or less on the "outs" for some time over the respective claims of the cities of Calgary and Edmonton, Mayor Andy Davidson and Mayor Clarke called a truce to ride together in the Calgary and Edmonton stampede parades.

### LOCAL DISTRICT MUSIC

PUPILS ARE SUCCESSFUL

The following piano pupils of Miss Madeleine Chardon were successful in recent examinations, conducted on June 17th by Mr. Felix Swinstead, of the Royal Academy of Music: Grade IV, Oliver Brown, distinction; Grade VI, Yvonne Harrison; Grade VII, Thelma Wheatcroft, Rose Oliver and Margaret Murray; Grade IV, Beth Murray, theory. And in examinations conducted on June 20th by Mr. Donald Heins, of the Toronto Conservatory of Music: Grade I, Donald Graham, first-class honors; Grade III, Donald Ferguson, first-class honors; Grade IV, Ricca Vinoni and Roberta Thornton, both first-class honors; Grade V, George Kerr, first-class honors; and Lorraine Pirlet, honors. A T.C.M. (performer's practical) Isabel Westrup, first-class honors; Dorcen Chappell, honors; Doris Hales.

The following pupils of Mr. W. H. Moyer, violin, were successful in passing the recent examinations of the Royal School of Music. The examinations were conducted by Mr. Felix Swinstead: Grade 1—Lois Hardy, Cranbrook, honors; Annie McGillivray, Cranbrook, honors; Grade 2—Annie Cannon, Kimberley; Grade 3—Vivienne May Norton, Kimberley; Beatrice Hebert, Kimberley, honors; Nan McLeary, Cranbrook, honors. Grade 5—Gordon Finley, Cranbrook.

### CANADIAN WILL

JUDGE EISTEDDFOD

Ernest MacMillan, principal of the Toronto Conservatory of Music, announces that he has accepted an invitation to adjudicate at the Royal National Eisteddfod, to be held at Macmillan, Wales, in August. This musical festival is the oldest, in the world, its early origins dating back over two thousand years.

The invitation to adjudicate at the national Eisteddfod is the most recent of a series of honors to be awarded on the Canadian-born musician. A year ago he gained the distinction of being the first and only person in the British Empire, outside Great Britain, ever to be knighted for musical services.

### THE PROSPERITY CERTIFICATES

At the well attended Social Credit meeting held Tuesday evening M. E. Tanner held the close attention of his audience.

Dealing with Prosperity Certificates he liked the Government to an employment agency, Mr. Tanner asked what unemployed man would not be willing to pay 1 per cent of his wages as a fee to this agency for obtaining him work? At the same time what merchant would not be more than willing to pay a 1 per cent cash discount for all new business which the Government was able to obtain for them. From this point of view it seems obvious that both merchants and laborers will be receiving benefits which would otherwise not be obtainable. As the Government was setting up a fund to cover the certificates there could be no question of their ability to redeem them, and while this fund would not be quite as large as the amount of certificates in circulation, this would not be necessary as only a certain proportion would be turned in for redemption at any one time. He also stressed the point that the ministers and members of the government had signified, in many cases, their willingness to accept the same proportion of certificates as they were planning on giving to their regular employees. In reply to a question, Mr. Tanner said he hoped for co-operation to the extent that certificates would be freely interchanged in stores with Dominion currency.—Ex.

In the little city of Trail, B.C., according to an address delivered in the House of Commons on May 11th, with a population of ten thousand people, they have an industry which has actually loaned to its employees one tenth of all the money that the government of Canada intends to advance to the people of the whole Dominion.

The Consolidated Mining and Smelting Company has lent approximately one million dollars to its employees, and constructed and repaired for them more than one thousand houses. It charges only five per cent, and makes things so easy that an employee, if he has a permanent position, can build for himself not only a house within the municipality, but a summer house up the lake.

Halle Sceliasse has ordered the reorganization of his army.

### WEDDING ANNOUNCEMENT

COMES AS REAL SURPRISE

A surprise shower that was given by about sixty lady friends of the principals of the party held in Blaimore recently turned out to be a far greater surprise to the friends and well-wishers when it was announced that Victoria Peressini, in whose honor the party was being given, had become the bride of Mr. William Jalpe, a member of the Blaimore school staff, on April 11th last. So well had they kept their secret that not even their closest friends had the least suspicion that they been united in the holy bonds of matrimony.

The ceremony was performed by Rev. A. E. Lark, of Blaimore, and the bride and groom were attended by Miss Beatrice Trono and Mr. Donald Macpherson, principal of the Blaimore public school.

After the many friends had gotten over the surprise the announcement had created, they offered their heartfelt congratulations to the bride and groom, and wished them much success and happiness in their wedded life.—Lethbridge Herald.

### CASTLE RIVER STAMPEDE

RODEO NEXT WEDNESDAY

Wednesday next promises to be a big one for the Castle River Club if the weather man acts kindly.

The big programme at the stampee grounds, near the South Fork bridge, will get away at 10 a.m. with a softball tournament.

Pete LeGrandeur has been secured as rodeo manager, with Wilbur Lang in charge of races.

Rodeo programme will include bucking horse riding, calf-roping, steer riding, wild-cow milking, boys' calf roping, etc. Races will include mile open foot race, mile open horse race, relay race, mile Indian, saddle horse race, five-eighths open, half-mile boys and girls, half-mile Indian, stake race, chuck wagon race, lugger race, etc. Prizes represent in value upwards of \$500.

A grand open-air dance at night will conclude the programme.

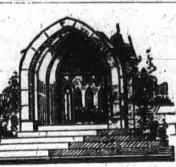

A commercial use is found for every part of a shark. Its skin is made into leather, its organs yield oil, its bones are ground into fertilizer, its head provides glue and its teeth are used in the manufacture of cheap jewelry.

All printers within the province of Alberta are to receive a share of the government printing, according to Rev. Peter Dawson, M.L.A. Savings were made by the government printing department with an equitable adjustment of printing being made. Until recently, the city printers received the "lion's share" of the work, but now printing shops in every constituency will have a portion, and constituency printers will receive instructions shortly. It was Mr. Dawson's opinion that liquor advertising would eventually be banned from Alberta newspapers and periodicals, and that the distribution of government printing would compensate the loss of the liquor ads.

In the little city of Trail, B.C., according to an address delivered in the House of Commons on May 11th, with a population of ten thousand people, they have an industry which has actually loaned to its employees one tenth of all the money that the government of Canada intends to advance to the people of the whole Dominion. The Consolidated Mining and Smelting Company has lent approximately one million dollars to its employees, and constructed and repaired for them more than one thousand houses. It charges only five per cent, and makes things so easy that an employee, if he has a permanent position, can build for himself not only a house within the municipality, but a summer house up the lake.

Ernest Rhys has been appointed road foreman with the works department of the Alberta provincial government.

J. Calderwood is a Calgary visitor.

"Serve the Church that the Church May Serve You."

### BLAIRMORE UNITED CHURCH

Rev. Albert E. Lark, Minister

Sunday services: 10 a.m.—Senior and Junior Schools. 11 a.m.—PUBLIC WORSHIP and Adult Bible Class.

7.30 p.m.—PUBLIC WORSHIP.

WEDNESDAY—8 p.m., service of prayer.

FRIDAY—8 p.m., group fellowship.

### ST. LUKE'S CHURCH NOTES

Rev. A. S. Parlington, B.A., Rector

7.30 p.m., Evening service.

### THE SALVATION ARMY

Coleman, Alberta

Lieutenant Fitch and Pierce

Sunday services: Directory class at 10.30 a.m. Sunday school 3 p.m. Salvation meeting 7.30 p.m. Come and enjoy an hour in God's house. Monday at 7 p.m.: Y. P. League. Tuesday, 7 p.m.: Home League, all ladies are heartily invited to attend. Friday, 7 p.m.: Young people's meeting.

### C.P.R. OFFICIALS VISIT

PASS COAL MINES

C. E. Stockhill, of Winnipeg, assistant to the vice-president there, accompanied by Mr. E. Humphrey, general fuel agent, also of Winnipeg, paid a visit to the mining camps in this district on Friday last. Considerable of their time was spent in Blaimore.

Late in the evening they left for the east.

### HILLCREST HAPPENINGS

The Hillcrest Girl Guides are in camp at Rock Lake, B.C., under the leadership of Mrs. H. Henderson. Sam Richards, who has been teaching in the north country, is spending his vacation with his parents.

Isabel Westrup was successful in passing the A.T.C.M. piano examination of the Toronto Conservatory of Music with first-class honors. She is a pupil of Miss M. Chardon, of Blaimore.

Gwyn Richards is at present attending the summer school course at the University of Alberta at Edmonton.

Glyn Rhys was fortunate in winning the money at the show on Wednesday last.

Mr. and Mrs. Harry Lewis are visitors to Calgary.

Mr. and Mrs. J. Mackie are spending their vacation in Vancouver.

Beattie Carter is a Stampede visitor this week.

Mr. and Mrs. W. Brushett left to spend the school holidays with their parents in Edmonton. They were accompanied by Miss Sharetta, who is visiting friends at Vermilion.

Mr. and Mrs. Cecil Coover left on Monday morning for Clarinda, where they will reside.

Mr. and Mrs. Lambert White have returned from their honeymoon.

Mr. and Mrs. J. C. Atkinson motored to Edmonton and Judah, Alberta, where they are visiting their daughter Beattie and son W. R. Atkinson.

Ernest Rhys has been appointed road foreman with the works department of the Alberta provincial government.

J. Calderwood is a Calgary visitor.

WORLD HAPPENINGS  
BRIEFLY TOLD

Soviet Russia's blond "parachute beauty", Nadia Babushkina, 20, died at Toshkore of injuries received in a jump.

An angry crowd of 3,000 stoned the automobile of Sir Oswald Mosely, leader of the British Fascist party, and smashed windows at the Fascist club at Haine.

Even district court judges are not immune from court summonses. His Honor Judge Lucien Dubuc of Edmonton got one. He had failed to take out a license for his dog.

Robert A. Merritt, Jr., Winnipeg, was elected commander of the American Legion in Canada for the coming year, at the business session of a one-day convention in Windsor, Ont. University of Manitoba students may study the Norse language and literature in future years. Addition of this course to the curriculum in the faculty of arts and science has been announced.

Rev. Brother Henry of the congregation of Christian Brothers, who started his 50 years of teaching at St. Brigid's, Ottawa, in 1886, died in Montreal at the age of 68. He had taught in Toronto and Yorkton, Sask., during his career.

The board of railway commissioners published a judgment granting application of the Brandon, Saskatchewan and Hudson Bay Railway company for permission to abandon operation of its line from Morden, Man., to the international boundary. Three Saskatchewan nurses and one each from Alberta and Manitoba are listed among those who passed the May examination for nurse registration in Ontario, as required by the department of health. Saskatchewan nurses are Frances M. Adams, Edw. Egan, Mae Brunelle and Julia Corkery, LaFleche.

## Consideration For Workers

General Foods Gives Annual Vacations With Pay To Hourly-Rated Employees

Factory employees of General Foods in 31 plants in various parts of Canada and the United States will enjoy from one to two weeks' vacation with pay this summer. General Foods employees who have completed two years but less than five years of continuous service by July 1 of each year, and who have record of regular attendance during the preceding calendar year, will get a week's vacation with pay during the current calendar year. Employees who have completed five years or more of continuous service will receive two weeks' vacation with pay.

The decision to reward General Foods' hourly-rated employees was made by the food company's plant managers. Adams said, "The vacation plan was made by R. K. McIntosh, Vice-President, General Foods, Limited, Toronto.

"The purpose of the plan," McIntosh said, "is to provide annual vacations with pay for hourly-rated employees. It is a recognition of continuous service and regular attendance and of the value of a period of recreation from routine duty."

"Vacations with pay for factory employees is not an innovation in General Foods," Mr. McIntosh explained. "It has been the practice for many years in some units of the corporation to give vacations with pay on a limited basis. The newly announced program is a further step in the long established industrial relation policy of the corporation. It will liberalize the existing vacation plan and make vacations with pay available to all General Foods factory employees with two years of service."

Two years ago General Foods provided its employees with an old age retirement plan. A group insurance program, supported in part by the corporation, also is in force.

During the depression the corporation maintained a high average of employment, and since then General Foods has increased employment to what is now the highest in its history.

## Qualified For Prize

Italian Farm Handed Down In Family For 918 Years

Giusseppe Plerantoni, descendant of a family which has lived on the same farm for 918 years, has been awarded a prize by the Italian government. Records show that in 1018, when barbarians were still over-running the Italian peninsula, a peasant named Plerantoni reclaimed a plot of marshy land in Montebate, which has remained with and been cultivated by his family ever since. Last year the "Fedella Alla Terra" prize, as it is known, went to Antonio Gastelloni, who, by his 11 children and grandchildren, was proved to be working the same land at Querciola, which his ancestors had worked for 709 years.

## British Aviation

Huge Sums To Be Spent In Developing Air Craft

The greatest financial year in Britain's history of aviation is just starting. Between now and next April more than \$132,500,000 will be spent on aviation alone.

Work, for the right man, is to be had for the asking. There are not enough men to fill the positions vacant. Every pilot with the right licenses has a post, every workman with skilled experience is drawing overtime pay, every designer with ideas is busy at a drawing board.

The largest order for civil aircraft ever placed has been gained for the new Imperial Airways' machines, craft that will span the Atlantic, halve times on the empire lanes.

More than 2,000 men are at work in the Rochester works of Short Brothers, finishing the first batch of flying boats for this order. Another 3,000 are making the engines for them. Hundreds more are making the land planes for this order at Armstrong-Whitworths. The order amounts to \$10,000,000.

The government is spending \$90,000,000 on the Royal Air Force expansion scheme. Every aircraft factory in the country is working to maximum capacity on this order. No more orders are being taken.

## Wider Markets

Says U.S. Policy Of Economic Isolation Will Bring Prosperity

What the United States needs is a complete readjustment of the economic policy we have pursued since the World War, wider markets for our own and our customers' goods, a wider field of endeavor for labor, a way out of which our foreign debtors can gradually liquidate their obligations to us. The policy of economic isolation if protracted for a million years could not in that time turn return work and prosperity to the people of the United States.

Under a policy of economic isolation, even if a man makes a profit more and more of that profit will have to be contributed to the government to provide subsistence for the unemployed. Under this policy we make it necessary for those who are working to support those who are not. The more trade we have the greater our prosperity and correspondingly less the tax burden. Less trade, less prosperity and higher taxes.—Senator Tydings of Maryland.

## More Than A Coincidence

June Brides Did Not Choose Thirteenth For Ceremony

Superstition is gradually dying away but it looks as though there's a little of it yet, especially in connection with weddings. For instance, the Saturdays in June usually win with one another to see which will have the most marriages to its credit. This year, however, a Saturday came on the so-called unlucky 13th and whether it's coincidence or not, the Saturdays before and after have a bigger-than-ever list, while the 13th contents itself with less than half the normal number.

The brides of June 13, however, aren't a bit afraid of any bad luck. They all chose the day because it fits in best with their plans, although one admitted that she had rather a hard time convincing herself that the "13" didn't matter.—Toronto Telegram.

## Has Large Interests

Over \$150,000,000 Of British Capital Invested In Shanghai

When one thinks of Britain in China, one thinks of Shanghai. It is estimated that something over \$150,000,000 represents the investment of British capital in Shanghai. "In spite of Japan's numerical predominance, the British community in Shanghai still contributes nearly twice as much as the Japanese towards the municipal taxation," according to The Round Table. What has been going on in Shanghai in recent years is typical of the changing conditions in the Far East. There has been a tremendous increase in the Japanese population in the international settlement and adjacent areas, till today the British are outnumbered nearly four to one. But the municipality has been developed by the British and its local council is controlled by them.—Hamilton Spectator.

King Edward has sent to the local corporation at Birmingham, England, on permanent loan, his silver trowel with which he, as Prince of Wales, laid the foundation stone of the Hall of Memory. 2198

The best of being a juggler is that you don't have to worry about getting caught in the rain with your hands full.—Stuttgarter Illustrierte.

## Settle Child Actor's Case

End Dispute Over Custody And Earnings Of Freddie Bartholomew Judge Harry Archibald has approved an agreement ending the family dispute over the custody and earnings of Freddie Bartholomew, child screen actor.

The agreement gave the custody of the 12-year-old star to his aunt, Mylicent Mary Bartholomew, who has piloted his screen career from its beginning.

The boy's parents, Cecil Llewellyn Bartholomew and Lilian May Bartholomew, were awarded the right to visit him as often as they cared to so long as this did not interfere with his movie work.

The Union Bank and Trust Company was named as guardian of Freddie's estate and his earnings—officially estimated at \$1,250 weekly—were ordered distributed as follows:

Ten per cent. to the father, five per cent. to his minor sisters, Eileen and Hilma, and the remainder to his own estate.

From the estate the expenses of the boy actor and his aunt will be paid. The residue will go towards building a fund for his education and future needs.

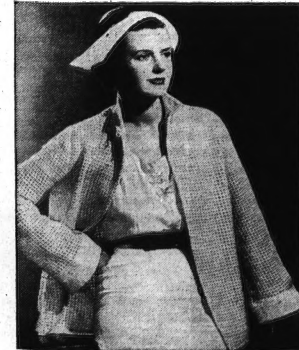

## Home Away From Home

Glasgow Prisoners Are Made Comfortable For Favored Few

Prisoners of Glasgow, Scotland, are to be just like a home away from home to a favored class of law breakers. The city will spend \$3,500 in making cells more comfortable with blankets, pillow slips, bolsters, rubber mattresses, collapsible tables and chair and other conveniences. Drunks will not be permitted to use them. Recently questions were raised in Parliament about the treatment of persons awaiting trial.

Less than 700,000 domestic servants in the United States live under the same roof with their employers.

## Swagger Jacket "Takes You Places"

PATTERN 5653

A baby swagger, the smartest coat fashion of the season, is especially smart when done in crochet. Work one for yourself, of string or yarn—it's mainly in a simple stitch with plain crochet. For cuff and collar bands. Make yourself a plain crocheted skirt, pattern 5553, and you'll have a complete suit.

In pattern 5653 you will find complete instructions for making the swagger jacket shown in sizes 16-18 and 20-22; an illustration of it and of all the stitches needed; material requirements. Price of pattern 20¢.

In pattern 5553 you will find complete instructions for making the skirt shown in sizes 16-18 and 20-22; an illustration of it and of the stitches needed; material requirements. Price of pattern 20¢.

To obtain these patterns send 20 cents each (40 cents for both) in stamps or coin (coin preferred) to Household Arts Dept., Winnipeg Newspaper Union, 170 McDermott Ave. E., Winnipeg.

There is no Alice Brooks pattern book published

## Sea Monsters

Each Season Brings Its Own Story Of Some Fearsome Sea Serpent

There must exist subterranean monsters of which we have no knowledge, for periodically reports from outlandish places reach us of fearsome creatures. The latest is a description from Papua of a sea-serpent with long, curled tusks like those of a boar. If the natives can capture one, the New South Wales zoo will give the public the greatest sensation of the year. Some men were sent to locate a specimen which sported near the shore, but it escaped. It was about 15 feet long, greyish in color, with a snake-like head, huge mouth, and pale stripes under the jaw. The same creature rose out of the water and poised itself to attack two fishermen, who frightened it away with shots, but not before they had noticed its vast round eyes and head.

## Mineral And Vitamins

Doctor Lists Things Every Child Should Eat Daily

What every child should eat daily to preserve the body's supply of minerals and vitamins was listed by Dr. F. F. Tisdall, of Toronto, at the Canadian Medical Association convention held in Victoria.

Dr. Tisdall specified from 25 to 30 ounces of milk, including milk used in cooking, which should be about one third of the total; eggs and meat in reasonable quantities; at least two vegetables besides potatoes, and some fruit or raw vegetable.

If the human body was getting enough mineral and vitamins, more would do no good.

Not only does a bat have exceptional powers of sight at night, but fairly good vision in daylight.

People of England paid more than \$33,000,000 last year for clothing made in other countries.

## SUNDAY SCHOOL LESSON

JULY 12

## WITNESSING UNDER PERSECUTION

Golden text: We must obey God rather than men. Acts 5:29. Lesson: Acts 3:1-4:31; I Corinthians 1:21-25. Devotional reading: Romans 10:8-15.

Explanations And Comments Peter's Cure of a Beggar's Lameness, Acts 3:1-10.

Peter Ascribes the Cure to Christ. Acts 3:11-16. An amazed crowd quickly gathered in Solomon's Porch, and Peter hastened to tell them that it was not by his own power that he had wrought this marvel, but through faith in the Prince of life the man had been made strong. This first act of healing of the apostolic age reminds us of the fact that triumphs of modern surgery and medicine being wrought to-day by medical missionaries in the hospitals of eastern lands seem to be as miraculous as the picture of this restored cripple, leaping about to try the new strength in his limbs.

Peter and John Arrested, Acts 3:17 to 4:4. Peter's preaching at this time gained so many believers for Christ that the number increased to five thousand in all. The priests, the captain of the temple, and the Sadducees came and arrested Peter and John because they proclaimed in Jesus the resurrection from the dead, the being evening and too late for it, they put the apostles in prison for the night.

Other's Boldness Before the Sanhedrin, Acts 4:5-12. The next day the Sanhedrin sat in session, that great Jewish tribunal before which Jesus had been tried and pronounced guilty. It was supreme in all matters affecting the Jewish law, the Christ that the number increased to five thousand in all. The priests, the captain of the temple, and the Sadducees came and arrested Peter and John because they proclaimed in Jesus the resurrection from the dead, the being evening and too late for it, they put the apostles in prison for the night.

"By what power or in what name have ye done this?" they questioned the prisoners.

Peter, now filled with the Holy Spirit, answered his enemies. "Ye rulers, ye elders (the chief priests) and elders (representatives of the Sanhedrin) if we this day are examined (put on defense) concerning this man, we need to defend ourselves for doing good) be it known unto you all, and to all the people of Israel, that in the name of Jesus Christ of Nazareth, whom ye crucified, whom God raised from the dead, even in him do we stand by the sword of the law, which we have taken before you whole." This bold Peter accused them of having crucified the Son of God, the one who was set at naught by his own builders, which was made the head of the corner, that is, the stone at the angle of two walls which supports and unites them. See Ps. 118:22 and Matthew 21:42-44.

"In none other is there salvation: for neither is there any other name under heaven, that is given among men, whereby we must be saved"; with these words Peter ended his witnessing for his Lord.

## Thousands Watch Air Display

Britain's New Fighting Planes Go Through Intricate Manoeuvres

One hundred and fifty thousand persons, including representatives of 47 foreign powers, attended the annual display of the British Royal Air Force at Hendon airbase.

The huge crowd watched Britain's new fighting planes roaring over the field at a speed of 300 miles an hour and participating in intricate flight manoeuvres.

One of the features of the display was a training demonstration in which two flyers took to the air and all instructions from the "teacher" to his "pupil" were relayed to the crowd by radio and loud speakers stationed on the ground.

## Hospital At Akivak

New 24-Bed All Saints' Hospital To Be Opened This Autumn

When the new 24-bed All Saints' hospital is opened at Akivak, diocese of the Arctic, this autumn, Miss Margaret Field, Chilliwack, B.C., will be added to the staff. It was announced that destroyed by fire April 6.

Miss Field will accompany Margaret A. Solomon, nurse-in-charge at the hospital, and Marion Harvey, house matron, when they journey to Akivak by the last boat down the Mackenzie river in August.

Miss Solomon has been in New Westminster, B.C., since the fire, and Miss Harvey in Toronto.

"I suppose when you have been flying for a year or so it becomes second nature," said Miss Harvey.

"Surest thing you know, Why, I'm getting so that I often feel craving for worms and bird seed."

## Employment In Canada

Upward Trend Is Indicated In Returns Made By Firms

Employment in Canada, as indicated by returns of statistics returned from 9,590 firms, showed a gain of 23,295 persons on June 1 as compared with May 1, the bureau reported. In comparison with June, 1935, an increase of 47,721 was shown in the number employed.

This advance, while larger than the gain recorded during the month of May last year, was smaller than the average seasonal gain in the period from 1920 to the present.

The report showed 983,513 on the payroll of the co-operating firms. Compared with 940,218 at the beginning of May and 915,792 on June 1, 1933, the index of employment on June 1 stood at 102.0 compared with 99.5 in the preceding month and 97.6 on June 1, 1935. The index is based on the year 1926 as 100 and at 102.0 stood at the highest figure for June 1 since 1931.

Improvement was reported in manufacturing, particularly in the food and lumber divisions. In the non-manufacturing industries, there were important increases in logging, mining, communications, transportation, highway and railway construction and maintenance, services and trade. On the other hand, building construction was not so active.

The trend was favorable in four of the five economic areas. Firms in the prairie provinces employed the greatest number of extra workers.

Construction (especially railroad construction and maintenance), transportation, manufacturing and trade showed improvement in the prairie provinces.

## Stand By The League

General Smuts Enunciates The Position Of South Africa

General Jan Smuts, minister of justice in the Union of South Africa, said in a recent speech that it would be "sheerest lunacy" for South Africa to quarrel with Great Britain.

He said the union would stand by the League of Nations until the very end, agreeing with the views on the league expressed by Prime Minister J. B. M. Hertzog.

(South Africa has expressed her opposition to dropping sanctions against Italy for the Ethiopian conflict.)

"I would be shearer lunacy to quarrel with England," General Smuts, a former prime minister, told an Afrikaner day meeting. "We do not possess a single ship able to ward off anti-aircraft carriers which could land enough planes on our shores to sweep our large cities within a few hours."

"I am not referring to an imaginary danger but to a very real one. It is said we will be simply dragged into the next war in which England is involved but let me tell you that England knows South Africa wants to keep out of war, and also knows that South Africa has the right to decide her own course of action and the union will not declare war unless the people of South Africa through their own parliament have decided on that question."

Gen. Smuts said that South Africa constituted "an attractive bait for avaricious nations." He declared there was no doubt her position was becoming most dangerous.

## Indian Boys Build Boat

Work At Sardin, B.C., Was Done In Four Months

The boys at the Colquheta Industrial School, Sardin, B.C., under the direction of Mr. R. Hudleston, have completed the building and delivery of a very fine boat. The boys, between the ages of fourteen and seventeen, have done the work in four months. Thirty-five feet long, with an eight-foot beam, it will be equipped with a hundred horse-power motor. It has nice lines and a light draught. The planking is British Columbia red cedar, the keel is of fir, ribs of oak, while half a ton of Australian gum wood has been used. As these boys come from families engaged in boat-building and fishing, the training they get at the school is of practical importance. A rowboat is now under construction, and part of the instruction dealt with gas-engine construction and repairs. While the Indian boys are thus employed, the girls are not idle, as the products of the arts and crafts department demonstrate.

"Shorty", a mongrel dog, earns \$35 daily for his master by playing "fox" parts in moving pictures. Real trained foxes earn only a third as much.

A contemporary defines an amateur gardener as one who makes his beds and then lies about them.

# COWLEY HAPPENINGS

Ed. Labrie, who was appointed census enumerator for this district, finished the work around the end of June. Cowley was well represented at the St. Hopkins orchestra dance in the community hall at Lundbreck on Friday night.

Bob and Murray McCabe, of Sirdar, B.C., are paying a visit to their uncle, H. C. Morrison, and family.

Miss Dorothy Wood, who has been employed as teacher at Turin, has returned home for the summer holidays.

Ronald Morrison returned from Calgary on Monday, where he had taken a course in the Hepburn business college.

Miss Isobel Smith, after spending ten months in Cowley, has returned to her home in Frank.

Bradford Tustian is relieving Agent J. J. Murray at the Frank C.P.R. station. Mr. Murray is on vacation.

Pat Patterson left on Monday afternoon's train for an extended visit at various points in Eastern Canada.

The Cowley Girls' Club was entertained by Miss Marion Morrison at her home on Monday night. At this meeting arrangements were made to hold a dance in the near future. The date has not yet been definitely decided upon.

E. H. Matthews has been employed by the Alberta Pacific Elevator Co. to fill the vacancy left by Edgar Cowin, who had been stationed with the company at their Cowley branch for the past fourteen years. Mr. Matthews has moved his family into town.

On Saturday afternoon, the Ladies' Aid of the United church held a garden party. Mrs. C. Bundy lending her lawn for the occasion, when tea and

confections were served. This enterprise was well patronized, and a neat sum was added to the church fund.

Among the Cowleyites visiting at Waterton Park on Sunday were: Mr. and Mrs. J. R. Wood, Misses Ila and Marie Wood, two Miss Matthews (guests at the Wood's home), Mr. and Mrs. F. A. Tustian, Mr. and Mrs. Arthur Tustian, Miss Marion Morrison, Miss Isobel Smith, Miss Evelyn Smith, Ronald and Lloyd Morrison, Ed. Smyth, Miss Muri Smyth, Harry Smyth, Stanley Snyder, Cyril Easterbrook and others.

Miss Sylvia Murphy has gone to Beaver Mines, where she will visit friends for a few weeks.

Gordon Winters, of Macleod, is paying a two weeks' visit at the home of Mr. and Mrs. C. J. Bundy.

Mrs. W. Portch and little granddaughter Alanna, of Macleod, paid a visit the latter part of the week to Mr. and Mrs. M. A. Murphy and family, thence journeying on to Galloway, B.C., where she will spend a few weeks with her daughter, Mrs. David Murphy.

Enroute by motor for a holiday in Portland, Oregon, from their home in Peace River district, Mr. and Mrs. Roy Easterbrook and family stopped over for a few days at Cowley this week to pay a visit to Mrs. E. S. Easterbrook. Owing to excessive rain, they report the roads in very bad condition in the north country.

Enroute to Vancouver, Mr. and Mrs. Winters, of Macleod, stopped over to pay a visit to Mr. and Mrs. C. J. Bundy on Thursday of this week.

Mr. and Mrs. Callender Fraser have returned from a few weeks' holiday spent in the Creston district.

M. A. Murphy is attending the Shriner's ceremonial in Calgary this week.

After farming in the Cowley district for a number of years, Mr. and Mrs. Jack Green and family are moving to Vancouver. Mr. Green will engage in mixed farming when he settles at the coast.

A near serious accident happened on Sunday morning last, when Rev. Mr. Upton and Mrs. Upton, of Bellevue, were on their way to hold service in the United church at Cowley. Driving at an ordinary speed, the steering wheel jammed from a bolt that had become loose. Mr. Upton lost control of the car when it rolled into the ditch at the roadside. Neither were hurt, only a bit shaken up. A Mr. Cousens, travelling east, picked them up and brought them into town, only about twenty minutes late for the service. The car was brought into Cowley for repairs.

## BELLEVUE HAPPENINGS

Mr. and Mrs. S. Thomas are holidaying in Vancouver.

Mr. and Mrs. Fred Hallworth and son Robert, accompanied by Mrs. George Chiarovano, left Sunday to attend the Calgary exhibition and stampede.

Miss Freda Wolstenholme left last week to spend her holidays in Vancouver.

Charles Ritchie, junior, left last Wednesday to hitch-hike to Vancouver.

Joe Venier (Pie) sustained painful injuries Friday last, when at work cribbing a well. His foot slipped and he fell down the well. At last report he was progressing favorably.

Mrs. William Blinston, of Cranbrook, is visiting at the home of her daughter, Mrs. C. W. Johnson.

The strawberry tea and sale of home cooking, held by the Ladies' Aid of the United church on Saturday afternoon, was a huge success. The ladies wish to thank all who helped in any way.

Joe Morris, who has been teaching south of Cardston, arrived home last week.

Mr. and Mrs. Gordon McIntyre, of Lacombe, are visiting at the home of Mr. and Mrs. D. Morris.

Mr. S. J. Lamey, who had been confined to his home through illness for a few days, is able to be around again.

Mr. and Mrs. McEachern and son Frank are spending the summer holidays

days with Mrs. McEachern's mother in Edmonton.

J. Watson, of Michel, spent a few days visiting at the home of Mr. and Mrs. D. Morris.

Mrs. R. Littleton, of Cowley, spent a couple of days visiting at the home of her brother, A. Wells.

Mr. and Mrs. Sirett, of Calgary, who had been visiting here with their son, G. K. Sirett, returned home on Saturday.

Miss Peggy Dowson left Saturday for Calgary.

Billy Hampson, junior, is a Calgary visitor.

Alex. McInnis left Sunday to attend the Calgary exhibition and stampede.

Master Joe Dowson is spending his holidays at Coal Creek.

Mrs. D. Hutton left the early part of the week for Creston, where she will visit Mrs. James Eddy.

W. R. Underwood is a Calgary stampede visitor.

Misses Esther and Enes Chiarovano left Sunday for Calgary, where they will attend the technical school.

Quite a number of Bellevue folks were present at the unveiling of the Kootenai Brown memorial at Waterton Lakes.

Mrs. Smith, who had been visiting at the home of Mrs. J. D. McDonald, left for her home in Edmonton on Monday.

The Bellevue Girl Guides are under canvas at Rock Lake, B.C., under the leadership of Mrs. F. Utley.

Misses Nora and Millie Spooner and Mrs. E. Blas are camping at Lee Lake. George Coupland is a Calgary visitor this week.

Mr. and Mrs. Wilfred Eggleston, of Ottawa, are spending a few days with Mrs. Eggleston's parents, Mr. and Mrs. Raskewitch.

Mr. and Mrs. Gus Mattison and family returned Wednesday from the Calgary stampede.

Miss F. Rowell, of Wapella, Sask., is visiting at the home of Miss Gladys Knowles.

Mr. A. Wells and son Albert were Calgary visitors this week.

At the annual convention of the Sovereign Grand Orange Association at Charlottetown, P.E.I., Sir Richard A. Squires, former premier of Newfoundland, was elected deputy grand master.

A delegation of teachers recently appeared before the Saskatchewan government, asking that the province assume responsibility for back salaries due teachers in the drought areas. They stated that these aggregated about a million dollars.

Occupying a suite in a Calgary hotel on Monday night, C. J. Tompkins and his son Jack, of Blairmore, and a friend, were robbed of around \$148 by an unknown party.

The appeal in behalf of Daniel Bannister, sentenced to hang at Fredericton, N.B., for the murder of Philip Lake last January, was dismissed. Bannister will hang in September.

Months ago we were hoping that the Tim Buck boulevard would have by now been erased from the face of the earth. It is still there, breeding stinkweed, etc.

# Without Fear Or Favor...

"I WILL hew to the line of right, let the chips fly where they may." It takes a stout heart to adopt this principle of General Grant's, yet it is the everyday matter-of-course attitude of a good newspaper. No matter whose head rolls in the dust, the truth must be told. No matter what storms of protest and vituperation it brings about its ears, your newspaper prints the news as and where it is found, faithfully and accurately. No malpractice to the public injury is hidden or condoned; no improper policy goes unchallenged. Because the newspaper is the forum and the voice of public opinion. It is the moving picture of daily life where all may see and all may judge freely and independently.

"THE truth, the whole truth and nothing but the truth." As conscientiously as though it were under oath your newspaper gives the plain unvarnished facts. Disagree with its editorials if you will—you have a right to your own opinions—but in the news columns you will find only the news, candid and impartial, on which to base your own judgments.

PRESERVE THE INTEREST AND THE VOICE YOU HAVE IN AFFAIRS AND IN YOUR OWN GOVERNMENT BY READING, AND, AT WILL, USING THE FREE IMPARTIAL COLUMNS OF YOUR NEWSPAPER.

### Tourist Trade Revenue

It would appear that provincial governments of the prairie provinces which neglect to spend sufficient money to maintain their highways in good condition are overlooking a good bet. If figures of tourist traffic from the other side of the international boundary into Canada are an index of what might be expected if highways were made attractive enough to draw the quota of this windfall which the western provinces might reasonably expect.

Recently published figures show that tourists entering Canada in 1935, most of them from the United States, were responsible for a total expenditure of \$202,314,000 in this country during their stay here, if an estimate published by the Dominion department of trade and commerce can be accepted as reasonably accurate.

This is an enormous revenue from such a source when it is remembered that the principal export industry of this agricultural country totalled in value \$156,153,857 in the same year, this being the value placed on Canadian exports of wheat and wheat flour for 1935 by the External Trade branch of the Dominion bureau of statistics.

Thus the tourist trade to Canada in 1935 was worth approximately \$46,000,000 more to the country than the principal exported agricultural commodity and, when it is pointed out that a substantial proportion of tourist expenditure means clear profit, the value of the traffic in comparison is greater than even appears on the surface.

But when one examines the comparative figures of income from tourist traffic by provinces it is immediately apparent that the share derived by the prairie provinces is not so large as it might be. It is but a drop in the bucket compared with the income enjoyed by some of the eastern provinces and British Columbia from the same source.

For example, figures compiled by the Saskatchewan Motor Club show that on an average expenditure basis, varied according to length of time of their visit, American tourists entering the province direct through ports of entry on the contiguous region of the international boundary line spent approximately \$522,024 in Saskatchewan in 1935, to which is added another \$552,670 as the estimated expenditure of those who entered the country through Manitoba and Alberta ports and spent a portion of their time in Saskatchewan, making a total of \$1,074,714 as Saskatchewan's share of this new industry—if it may be called such—last year.

In other words all that Saskatchewan derived from this source of new wealth was less than one per cent. of the Dominion's total income from tourist traffic. Without going into further detailed figures it may be said that the tourist revenues accruing to Alberta and Manitoba for the same period were relatively commensurate.

There are certain factors responsible for British Columbia and some of the eastern provinces, and particularly Ontario and Quebec, securing the great bulk of this traffic. One of these is the fact that these provinces are relatively closer to the large American centres of population. This is the principal reason why the great proportion of tourist traffic enters Canada on the Canadian side in these provinces directly linked with similar highways in the United States.

But even after allowing for the greater advantages enjoyed by those provinces mentioned, the fact still remains that the prairie provinces are not getting anything like their proper share of tourist traffic and that for them there are great potentialities yet undeveloped.

The relative success of American tourists in the prairie provinces is partly a heritage of the comparatively recent days when visitors found it a frequent experience to have their cars bogged down in mud. Highways have been materially improved since that time but the stigma earned by prairie roads in those days has by no means been lived down yet. This coupled with the difficulty of financing maintenance of a great mileage of gravelled highways during the still more recent depression years has had the effect of keeping away from the prairie provinces a good many who would have come, but for the skepticism grounded on former experiences.

This is a handicap which has to be overcome before the three western provinces can expect to share in full measure the dividends of tourist traffic to which their natural advantages and beauties entitle them. This can only be done by taking the necessary steps to see that the network of highways already built is maintained in good condition and that as far as possible the dust nuisance of the gravelled highways is eliminated or at least mitigated to a minimum coupled with judicious advertising.

#### Has Modernized Turkey

People Owe Great Deal To President Of Republic

Mustapha Kemal Fasha, President of the Turkish Republic since 1923, has had eight attempts on his life in 15 years. He pays a servant \$3,000 a year for working 30 minutes a day to taste his food before he eats it—in case of its being poisoned. Mustapha Kemal—known as "Grey Wolf"—has made Turkey a modern State. The Turkish army discarded the fez at his command, and he has altered women's veils, the Turkish calendar, and has thrown overboard the old. He has separated Church and State, established art schools where students work from living models. In Ankara, the capital, there are seven monuments of him. Mustapha Kemal is fond of dancing and gay company. He encourages the young folk in enjoying themselves. He is 56 years of age, the son of a minor official, and was educated at the Military College, Turkey.

#### Belong To Fine Arts

Softball and bridge have been elevated to the "fine arts" by Vancouver's public library. The library's latest report lists a book of official rules of softball and a book on bridge under the fine arts section, along with such intricate hobbies as hand-loom weaving and metalcraft.

Musical instruments used by the Chinese are drums, cymbals, horns, lutes, castanets and flutes. There are three varieties of bells—po-chung, te-chung and pien-chung.

#### A New Fire Extinguisher

Bomb That Puts Out Blaze Demonstrated In France.

There has recently been demonstrated in France by its three inventors, Signor Redonelli and Signor Fendi of Italy and Herr Puchner of Austria, a bomb that kills fire.

The demonstration was arranged in collaboration with the Strasbourg Fire Brigade, which built some stage scenery houses and set them alight. They then lighted petrol and rubber. The new bombs killed all these fires, and aroused great enthusiasm.

The principle of the new bomb is like blowing out a candle on a vast scale; the force of the explosion put out the fire. The chemical substance in the bomb contains no gas harmful. It possesses the property of cooling the material it touches, and so prevents the debris from smouldering afterwards. The effect of these bombs on blazing petrol in the open air was amazing.

#### New Grain-Testing Station

An experimental sub-station is to be established north of Davidson in Central Saskatchewan. There are already 25 of these stations in the province for the testing of grain and grain samples under different methods of cultivation.

The tons of beeswax used in automobile manufacturing require the labors of \$3,000,000 bees.

People of Germany are drinking more sparkling wine than before the World War.

#### Toc H Movement

Celebrated Its Coming Of Age At Ceremonies In London

Toc H, a movement which began in a dugout in Poperinghe, on the Ypres road, in 1915, celebrated on Sunday, June 28, its coming-of-age in the Crystal Palace, London.

In an address at the ceremony of "lighting of lamps" the Duke of Kent traced the development of the movement through the empire from its humble beginning to the present stage, remarking that Canada now has 38 Toc H units and two houses, South Africa 87 units and one house, and Australia 140 units and one house.

He read a message from the king conveying his sincere greetings and congratulations and recalling that from the earliest years of the movement he had presided practically every year at the lighting of the lamps of maintenance.

(The objects of the Toc H movement are to "perpetuate the lessons of cheerful self-sacrifice and mutual help, without barriers of class or creed, taught by the young men who laid down their lives during the Great War.") The symbolism of the lamp represents the keeping alive of "the ideals which they embodied".

Referring to the recent visit of "Tubby" Clayton—Rev. P. B. Clayton, founder of the movement—to the eastern Mediterranean, the duke said it stimulated Toc H in that part of the world, where many of its members are drawn from the army, navy and air force.

#### British Broadcasting

Government Extends Charter Of The B.B.C. For Ten Years

Following the recommendations of a special committee on broadcasting, it was announced in London that the government would extend the charter of the British Broadcasting Corporation for 10 years from Dec. 31 next, increase the number of governors from seven to 10 and increase the corporation's share of revenue from public receiving licences.

Cost of such licences will remain at 10 shillings.

The government held the view the corporation should continue to refrain from commenting upon current affairs, both in broadcasts and in the corporation's own publications. It approved the suggestion of the committee—which submitted its report last March—that empire broadcast casting service should be developed. It also held that the licensing of relay stations should be continued for another three years, the postmaster-general being empowered to take over the relays afterward.

The government also approved the continued exclusion of advertisements and believed the responsible departments should take all possible steps to prevent the broadcasting of foreign advertisement programs.

However, the government rejected the proposal of the broadcasting committee, which was headed by Lord Illwaster, that the cultural side of broadcasting should be transferred to a cabinet minister.

#### Belgian Defense Project

Plan Erection Of Network Of Machine Gun Nests Along Border

A plan for a series of machine gun nests along the Belgian frontier and extension of the term of Belgium's obligatory military service from eight to 18 months were contained in proposals submitted to the military committee of the Belgian chamber by General Magline, former chief of the general staff and author of the Magline plan of national defence.

The defence project, which has been approved by the superior defence council, calls for erection of a network of small machine gun nests. They would be manned by trained mobile troops and would be reinforced by a "destruction system" under the Magline plan. The system of destruction would consist of mining bridges, roads and railways throughout the border regions to delay the advance of any invading troops.

In advocating the increase in the term of obligatory service, Gen. Magline said the measure would provide the nation with a sufficient number of trained troops to carry out his defence plan.

The pirarucu, a fresh water fish, is found only in the Amazon river and its tributaries. Resembling a whale, it often weighs as much as 200 pounds.

The famous mineral springs of Bath, England, produce 500,000 gallons of medicated water daily.

#### Violent Deaths

Automobile Accidents, Suicides And Other Mishaps Take Heavy Toll

Automobile and other accidents, suicides and homicides brought death to 6,885 people in Canada last year, the Dominion Bureau of Statistics reported. Almost all forms of violent death except suicides showed increases over 1934 and crept up toward record high levels registered around 1930 and 1931.

Automobile mishaps took 1,224 lives or 11.2 per 100,000 of population compared with 1,115 in 1934. This was the largest toll since 1931 when 1,319 fatalities occurred.

In all, 6,885 persons or 62.9 per 100,000 met death from external violence in 1935. This, too, was the highest total since 1931 and compared with 6,469 in 1934.

Suicides accounted for 902 deaths, compared to 927 in 1934 and homicides for 153 compared with 142 in 1934.

All provinces with the exception of Prince Edward Island, New Brunswick, and Alberta showed a larger number of motor vehicle fatalities in 1935 than in the preceding year. Prince Edward Island, however, had two deaths as compared with five, New Brunswick 40 against 52, and Alberta 45 against 61.

Prince Edward Island had the lowest rate, 2.2 per 100,000 and Saskatchewan stood next with a rate of 4.1.

#### SELECTED RECIPES

##### MARSHMALLOW CHOCOLATE LOAF CAKE

3 squares unweetened chocolate  
1/2 cup cold milk  
2 cups flour  
2 teaspoons Magic Baking Powder  
1/2 teaspoon salt  
1/2 cup butter  
2 1/2 cups sugar  
8 eggs (yolks only)  
1 teaspoon vanilla

In a double boiler put chocolate and milk, when melted stir until quite smooth—cool. Sift flour once, measure, add baking powder and salt, sift together three times. Cream butter, gradually add sugar and beat until light and fluffy. Add yolks which have been beaten until thick and lemon colored, and vanilla, then add flour mixture alternately with the cooled chocolate, a little at a time, beating well after each addition until smooth. Bake in a well greased pan in slow oven (325 degrees F.) for 25 minutes, increase heat slightly (to 350 degrees F.) and finish baking 45 minutes. Turn out carefully and while still warm cover bottom with marshmallows that have been rinsed off with cold water and cut in halves cross-wise. When cake is cool cover with chocolate frosting.

#### Invisible Light

Will Be Given By Lamps In Near Future Is Prediction

In the near future lamps will give "invisible" light. This forecast has been made by J. N. Waite, general manager of the Hull (England) Corporation Electrical Department. "Lamps will be able to give out not only visible light, but what we call 'invisible light,'" he said. "Scientists are still striving for increased beauty as well as increased efficiency."

#### India Has Odd Bridge

A bridge across the Jhelum River in Kashmir is made of wickerwork. It consists of three ropes made of hazel twigs, one to walk on and the others to hold, the ropes being kept in position by V-shaped branches every six feet. Although appearing frail and swaying about in a gale, the bridge is really very strong.

A dwarf in Zululand is 14 years old, but is only 20 inches tall and has not grown for years.

## Popping the Question!

Why don't you, too, get back to Ogden's Fine Cut? Times are better, and Ogden's is a better tobacco—the "one and only" choice of smokers who know that cigarettes rolled with Ogden's are the next best to "tailor-made". Get yourself a package today—it's Cellophane-wrapped and has the purple easy-opening device. And make sure you use the best cigarette papers—"Chantecler" or "Vogue".

## OGDEN'S FINE CUT

P.S.—Your Pipe Knows Ogden's Cut Plug

#### Lives In Lonely District

Woman Has Gold-Trading Post In British Guiana

A young woman arrived in Boston aboard the Canadian National Steamship liner Lady Nelson and told of conducting alone for four years a gold-trading post in the wilds of British Guiana.

Mrs. Violet McCurt, who has lived in British Guiana since she married "Mick" McCurt, gold and diamond trader, told reporters how she continued her husband's business after he lost his life in an accident four years ago.

"The natives agreed to trade with me, after they picked me and decided I was all right. They had never seen a white woman until 'Mick' took me back to the post, 200 miles inland from Demerara."

"When Mick died I just went right on with the business. Tourists reach the post quite often, to see 'Katie Teur Falls, which is, they tell me, five times larger than your Niagara Falls."

Mrs. McCurt said she had operated a river boat, acted as a guide for tourists, and the rest of the time conducted her store at the post, where, she said, she sold everything from rum to ammunition. On this, her first visit to this country, she said she would visit Boston and New York. She was born in Barbados.

#### The Shetland Islands

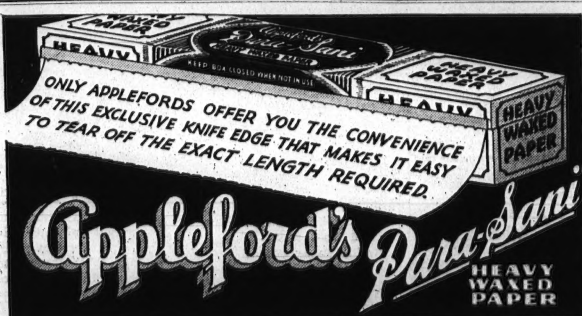

Only 2 1/2 Out Of 100 In Group Are Inhabited

The Shetland group consists of 100 islands, 27 of which are inhabited. The largest are: Mainland, Yell, Unst, Fetlar, Bressay and Whalsay. The islands seldom rise to more than 500 feet above sea level. Much of the soil is peaty, and barely one-sixth is under cultivation. Cattle and sheep are grazed and the small, sturdy Shetland ponies and Shetland wool are well known. Fishing is one of the chief occupations and the whale industry is of importance. Originally settled by Norsemen, the island remained under Norwegian rule until the marriage of James III. of Scotland to Margaret, princess of Norway.

#### Utah's Great Salt Lake

Because there's so much salt in Utah's Great Salt Lake, you can't sink or even submerge yourself in it. But it's still possible for an inexperienced swimmer to drown in the lake by going beyond his depth, losing his balance and being suffocated by the brine. But even then his body would float on the surface.

Statistics reveal that for every three men aged between 75 and 80, there are four women. For every four men more than 85, there are seven women.

Warehouses at Calgary, Edmonton, Regina and Winnipeg

## UNTIL HE SEES FIT, BALDWIN WILL NOT RETIRE

London.—Prime Minister Baldwin told a Conservative party gathering he is not ill, and will "retire when I think fit."

"But it is for me to decide," he said, "and for no one to dictate to me."

He had gone to Chequers, his country residence, recently for a short rest, the prime minister said, because "I was feeling rather tired and not sleeping too well."

"I have learned much from my short holiday at Chequers," he went on. "I have learned there is a procession of doctors between London and Chequers and that the telephone wires were fusing with requests for me to return to London, and that I was breaking up and my resignation was imminent."

"There is not a word of truth in those statements. There have been no doctors at Chequers. The telephone wires never enjoyed such repose. 'We will all retire some day. I'll retire when I think fit.'"

Reiterating that sanctions could not work without the participation of the United States, Japan and Germany as members of the League of Nations and that Great Britain was justified in abandoning sanctions because their continued application would mean war, he said:

"War is a very terrible thing, and when once let loose in Europe no man can tell how far it will spread and no man can tell when and how it will stop."

"I am quite content under the circumstances to be called a coward if I have done what I could in accordance with the views of every country in Europe to keep my people out of war."

He said Britain's joining the "mad folly of Europe" in rearming was justified on the grounds of the imposition of sanctions and in the carrying out of any future obligations under the league covenant.

In addition the nation needed a guard against "potential dangers which are becoming greater and greater."

He professed to see hope that "sooner or later it may be possible once again to discuss reduction in armament," bringing relief from tremendous expenditures, which if protracted too long may ruin us all."

## Zeppelin Changed Course

Came Via Montreal As Weather Conditions More Favorable

Montreal.—The German Zeppelin Hindenburg departed from her usual course on her trans-Atlantic flight last week and flew up the St. Lawrence river valley to Montreal before turning southward towards her base at Lakehurst, N.J.

The dirigible's commander witnessed the newspaper "Le Canada" while over this city that the big ship came via Montreal because weather conditions were more favorable than over the Atlantic coast.

The Hindenburg was later sighted over Plattsburg, N.Y., 20 miles south of the international border.

## Merely To Talk Business

Finance Minister Arrives in London For Trade Talks

London.—Finance Minister Charles Dunning arrived here from Canada. The purpose of his visit was merely to talk business with "Canada's best customer," he declared.

Mr. Dunning was met by Rear-Admiral Arthur Bromley, reception secretary of the Dominion office, and Lieutenant-Colonel G. P. Vanier, representing the Canadian high commissioner, Hon. Vincent Massey.

Mr. Dunning said he hoped to visit his native Leicestershire if he had time. He was born at Croft in that county.

## Bank Deposits Down

Ottawa.—Deposits by the Dominion government with the Bank of Canada during the week ended June 30 showed a decrease of \$679,128 compared with the previous week according to the weekly statement issued by the bank. At the same time deposits by chartered banks were down \$1,041,249.

## Again Takes Up Law

Quebec.—Free from the cares of political life, former Premier Taschereau has resumed the legal practice he relinquished 16 years ago. Every morning since he resigned the premiership he has gone to his office where he began practicing law nearly 60 years ago.

## Rate Has Been Reduced

Marine Insurance On Hudson Bay Route To Be Lower

Ottawa.—Reductions in marine insurance rates and a lengthening of the insurable navigation season on the Hudson Bay route have been announced by R. K. Smith, deputy minister of marine, coincident with a similar announcement in London.

Insurance rates on vessels equipped with gyro compasses are reduced from 22s 6d per cent. (or per f100) on insured value to 17s 6d per cent. The change, Mr. Smith said, would mean the "cost of insurance will be substantially reduced."

The navigation season for minimum insurance rates is being extended by eight days, opening five days earlier and closing at the same time as last year. The date for importation of surcharges for late departures from Churchill, however, has been set back three days, making an effective eight-day extension.

Last May, Hon. C. D. Howe, minister of marine, forecast the announcement in a statement to the House of Commons. He then worked out an estimate of the effect of the rate reduction and said a vessel of 5,000 tons equipped with gyro compasses and valued at \$50,000 would pay \$25 for insurance against all risks on a Bay route trip this year whereas last year the same charges would have aggregated \$37.

## World Wheat Surplus

Smallest In Nine Years Is Estimate Of U.S. Bureau

Washington.—The world wheat surplus was estimated by the United States bureau of agricultural economics at 388,000,000 bushels—the smallest in nine years.

This surplus as of July 1 in Argentina, Australia, Canada and the United States, the principal exporting nations, compared with 532,000,000 bushels a year ago, 741,000,000 in 1934 and 789,000,000—all time peak—in the summer of 1933.

The bureau added the world carry-over also would be the smallest in nine years—a total of 635,000,000 bushels as of July 1 compared with 800,000,000 a year ago and 1,109,000,000 two years ago.

The United States carry-over was reported at 125,000,000 bushels, the smallest since July 1, 1928. This compared with 152,000,000 in 1935, 248,000,000 in 1934 and 395,000,000 on July 1, 1933 which was an all-time high.

## Celebration In London

Earl Of Willington Guest Of Honor At Canada Day Dinner

London.—"Canada Day" celebration in London included a reception given by Mrs. Vincent Massey, wife of the Canadian high commissioner, which was attended by 3,000 guests, and a dinner at the Canada club in the evening at which the Earl of Willington, governor-general, presided.

In a speech at the dinner, which was presided over by Lord Greenwood, who is a native of Whitby, Ont., Lord Willington described the five years he had spent at Ottawa as the happiest in his life.

Canada, he said, had passed through a grievous time but had weathered the storm magnificently.

## Retired On Pension

Veteran R.C.M.P. Officer Has Served Twenty-Three Years

Prince Albert, Sask.—Concluding 23 years service as a member of Canada's famous police force, Detective-Sergeant James S. Wood, in charge of the criminal investigation branch of the R.C.M.P. Prince Albert sub-division has retired on pension from the force and on July 1 left with his family for Vancouver Island where they will make their future home.

Sergeant Wood has had a remarkably active career during the 40 years of his life, the last 23 being tacked with colorful episodes in connection with the duties of his office and his service overseas.

## Unreported For Twelve Days

Ship Of Sir Hubert Wilkins Finally Gives Position

Oso, Norway.—The Norwegian liner Stavangerford reported to Oslo receipt of a message from the Wyatt Earp, exploration motor ship of Sir Hubert Wilkins, which has been unreported for 12 days.

The Wyatt Earp gave its position as 46 degrees north latitude and 40 degrees west longitude, the master of the liner reported.

Sir Hubert told the master he had been delayed but hoped to reach Norway, his destination, about mid-July.

## POWERS RALLY TO THE SUPPORT OF THE LEAGUE

Geneva.—Three of the world's largest powers rallied to the support of the League of Nations in the face of veiled hints of smaller powers at withdrawal.

The three were Great Britain, France and Soviet Russia. Speakers for the first two said their governments would not recognize Italy's annexation of Ethiopia and all yoked continued faith in the league's future.

Delegates from Canada and South Africa presented opposite views with respect to continuation of sanctions against Italy.

Speaking for Canada, Hon. Vincent Massey, high commissioner to London, said there would appear to be no practical alternative for Canada but to support discontinuance of sanctions.

In the view of the Canadian government "the continuance of ineffective economic pressure which would not secure the original objective, would be worse than useless."

It had been urged members of the league should definitely undertake whatever compulsion might be necessary, but it seemed clear there was no appreciable number of effective members who would be prepared to embark on such a course while there was uncertainty as to whether the objective might not be lost sight of in "very serious disturbances that might arise."

Charles T. Water, high commissioner for South Africa, declared 50 nations led by three of the most powerful in the world were about to declare their powerslessness to protect the weakest in their midst.

"The authority of the league about to come to naught, my government desires me to say here this re-annunciation by the most powerful members of the league of their collective decision can alone be interpreted as a surrender by them of authority of the league—not because of impotence to safeguard that authority but a fatal denial of their ability to bear the sacrifice necessary for fulfillment of their obligations."

Eight Italian newspapermen, arrested for "creating a scandal" by heckling and cursing Emperor Haile Selassie when he addressed the assembly, were released from jail and immediately expelled from Switzerland.

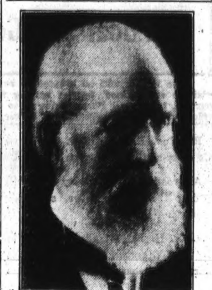

(Italy, standing behind the newspapermen, ordered its minister to Switzerland to protect the arrests. The action of the eight was hailed in Italy as a gesture of patriotism.)

Delegates broke into an uproar when Haile Selassie, defeated emperor of Ethiopia, went before them to plead his cause against victorious Italy.

## Heenan Highway Opened

Fort Frances, Ont.—The new 146-mile stretch of highway linking Fort Frances and Kenora formally was opened to traffic July 1 by Premier Mitchell Hepburn of Ontario who immediately christened the road "Heenan highway."

## RETIRES

Sir William Mulock, Chief Justice of Ontario, who, at the age of 92 years, has retired from public life.

## May Visit Canada

President Roosevelt Hopeful Of Visiting Governor-General

Washington.—President Roosevelt may yet accept the invitation of the governor-general to visit him in Canada this summer.

Soon after Lord Tweedsmuir extended the invitation last April, asking Mr. Roosevelt to be his guest at Rideau hall in Ottawa, it was said here pre-election engagements would make such a presidential trip impossible.

However, Mr. Roosevelt said at a press conference he still was hopeful of visiting the governor-general at Quebec in August. The vice-regal summer residence is at the citadel in the ancient capital.

The present presidential schedule calls for Mr. Roosevelt to board the schooner Seawander near Portland, Maine, around July 14 for a two-week cruise. It is expected he will visit the Roosevelt summer home on Campobello island, in New Brunswick waters, and a stop in Nova Scotia is said to be under contemplation.

If the trip to Quebec is decided upon, it is believed the president would go there by train from the Maritimes.

## Fast Torpedo Boat

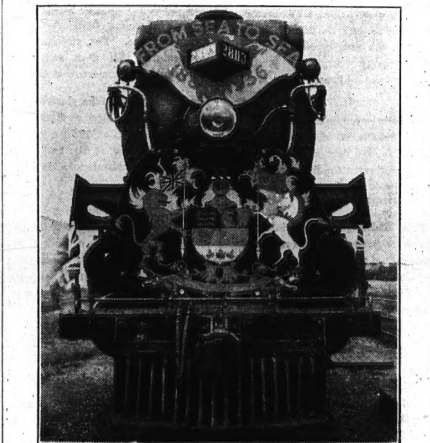

King Edward Travels 60 Miles Per Hour In New Warcraft

Portsmouth, England.—The king, paying his first visit to the navy since his accession, spent half an hour aboard a torpedo motorboat capable of 60 miles an hour.

After inspecting the shore establishments at Portsmouth, the king boarded the new type of boat. The boat headed out across the harbor. As it increased in speed, great waves broke over it. The stern was so low in the water it appeared to be submerged.

Experts believe that these torpedo motorboats, of which 13 cost less than one destroyer, may prove the navy's answer to the air menace. Their high speed and small dimensions make it almost impossible to hit them with a bomb. Each boat has two torpedoes, depth charges and a number of machine guns. Each has quarters for a crew of five.

## "FROM SEA TO SEA"

A relay of engines which pulled the Canadian Pacific Railway's fiftieth anniversary transcontinental train, left Montreal June 28th and arrived in Vancouver July 2nd. It carried the decorative adaptation of the Dominion Coat of Arms, shown above, on the huge 2800 locomotive. In the plate at the top appear the words "From Sea to Sea" and the figures "1856-1936". Red and white bunting covered the top of the cow-catcher and sides of the engine.

## Confesses To Theft Charges

Lawyer From Seaford, Ontario, Surrenders To California Police

Los Angeles.—John Joseph Huggard, Seaford, Ont., lawyer, wanted on theft charges, has signed waiver of extradition and a confession, Detective Captain Jack Trainer said.

Huggard, who has been in Los Angeles one week living in a small hotel at Sixth and Hope streets, said the principal motive for his walking into the police station and confessing "to pay the penalty for my offense" and because he was destitute.

Huggard said he left Seaford April 29 to 30, remained in New York a month, then went to Buffalo, stopped a night in Chicago and proceeded to Kansas City, Dallas and Los Angeles. He had been here one week.

In the statement taken by police Huggard was quoted as having "embezzled from \$30,000 to \$40,000 from a dozen different persons."

## WORKS PLAN AS A STIMULUS TO UNEMPLOYMENT

Ottawa.—Labor Minister Rogers announced conclusion of Dominion-provincial agreements under which at least \$30,000,000 will be spent this year "as a direct stimulus to employment," in addition to more than \$40,000,000 voted in supplementary estimates for federal works projects.

The new agreements for joint works on a 25-cent expenditure basis contain a mandatory clause providing at least 50 per cent. of those employed on projects covered by the \$30,000,000 shall be taken from relief rolls.

The minister made a simultaneous announcement that grants-in-aid to provinces for direct relief will be cut 10 per cent. during July, August and September. He said this step had been decided in view of the "improvement in general employment and in anticipation of the reduction of relief rolls through the joint works program."

Mr. Rogers said operation of the mandatory clause in the Dominion-provincial joint works agreement would have the result of "reducing the relief burden of municipalities and would also make it possible to determine the direct effect of public works projects as an aid to the relief situation."

He said projects covered by the agreements will consist largely of highway construction, "which will be developmental in its ultimate effects through the stimulus it will afford to two of the major industries of the country, namely, the mining industry and the tourist trade."

He emphasized provision in the agreements that grants-in-aid shall be subject to quarterly review. "Before the next revision takes place in September," he said, "it is expected that the national employment commission will have carried out a re-registration of those on relief, and that a new readjustment of the form and amounts of grants-in-aid will be based on an analysis of the actual relief situation in each of the provinces."

"The recent revisions have taken the form of horizontal percentage increases or decreases as applied to grants-in-aid which were in effect when the present government came into office last October."

This, he explained, meant that the changes might not meet adequately conditions in provinces where the employment situation had shown a retreat, and might be more than adequate for others which had experienced real improvement.

The 10 per cent. reduction in direct relief grants for the three summer months, the minister explained, recalled last April 1. However, he recalled, the grants were increased 75 per cent. last December, so that even with the two subsequent reductions Dominion grants to the provinces still are substantially higher than they were a year ago.

"In provinces where national parks are located," he said, "provision has been made in the new agreements for construction or improvement of main highways leading to the parks from the international boundary. At the same time provision is being made for improvement of other international gateways to Canada in order to facilitate tourist travel."

"Through the department of mines arrangements have been made with several provinces for construction of roads into proved gold mining areas where developments have been retarded by lack of adequate communications. The Dominion government is paying two-thirds of the cost of construction of these roads."

## SELASSIE ASKS LEAGUE FOR LOAN TO SAVE COUNTRY

Geneva.—Emperor Haile Selassie took two bold steps in an attempt to save his country, from complete domination by Italy.

First, he asked the league for a loan of \$20,000,000 to "defend her integrity." Then he sent to the assembly a draft of a resolution calling attention to provisions in articles X, XI and XVI of the covenant for non-recognition of annexation obtained by force of arms.

The negus, who delivered a personal appeal to the assembly two days previous, said Ethiopia has a right to assistance from the league under article XVI.

He recommended that league members guarantee the loan, which would be floated by Ethiopia under conditions to be fixed by the council and after consultation with the league financial committee.

Haile Selassie said he had placed before member nations questions to which with few exceptions the powers had not given a clear reply "in the present tragic circumstances."

For the sake of nations "which may be menaced by future aggression," he said, "it is important frankly and loyally, without equivocal, for each nation to take its responsibility by its vote."

The Dutch delegate, Dr. A. C. D. De Groot, suggested the league be reformed by eliminating sanctions and making the body a purely consultative one.

Australia's spokesman, Stanley M. Bruce, said in discussing the league's failure to save Ethiopia that "the hope of millions of men and women has been extinguished. We must rekindle that hope."

## Peace Conference Proposed

Valera Asks World Powers To Convene At Once

Geneva.—Immediate convocation of a conference of great powers to consider the present international situation in Europe was proposed to the League of Nations assembly by Eamon de Valera, president of the Irish Free State.

Referring to what he called the danger of war in Europe, De Valera said a peace conference would have to be held in any event "after Europe once more was drenched in blood." He said such a conference late in July even if Germany fails to reply to the British Lomax question-naire. Special efforts also will be made, it was understood, to get Italy into the parity.

Meanwhile it was reported France was desirous of getting Germany into a similar conference late in July even if Germany fails to reply to the British Lomax question-naire. Special efforts also will be made, it was understood, to get Italy into the parity.

## Plans Have Been Approved

Arrangements Made For Welcome Of Canadian Delegation To France

Paris.—Plans for welcoming the thousands of Canadians who will visit France on the occasion of the unveiling by King Edward of the Canadian war memorial at Vimy were approved when the welcoming committee met under the chairmanship of Marshal Petain.

Albert Riviere, minister of pensions, outlined the program, which will be elaborated later by the secretary-general of the committee. It provides for public receptions at Paris, Rouen, Brest and Arras.

## Had Few Accidents

Ontario's Record For Dominion Day Was Comparatively Clear

Toronto.—Despite brilliant summer weather, such a clear sky threatened to highways and beaches, Ontario looked back on a Dominion day unusually free from accidents.

Only two persons were killed, both in car accidents, and except for minor accidents there were "no-kill" accidents. The province relaxed at its many playgrounds, the day passed with few mishaps to mar its general joyfulness.

Pays Surprise Visit  
London.—The king paid a surprise visit to Portsmouth and inspected a battalion of the Middlesex regiment at the Victoria barracks at Southsea. His Majesty, who reviewed naval units and a conference at Portsmouth, fighting craft of the navy in gala ceremonies here, returned by automobile from Chichester, where he is staying with Lord Mountbatten. The troops were drawn up on the parade ground when the king arrived. Royal artillery units fired a salute.

## Local and General Items

The Editor will be pleased to receive items for this section, regarding visitors entertained, games played, for holidays or short trips, bridge parties, teas, etc. Please bring them in to 11 or hand them in at The Enterprise office no later than Wednesday evenings.

Rt. Hon. R. B. Bennett celebrated his sixty-sixth birthday on July 3rd.

All roads on Wednesday next will lead to the Castle River stampede grounds.

J. W. H. Sutherland, 64, editor of the New Glasgow, N.S., News, for more than twenty years, is dead.

Three desperate Doughboys were captured by the R.C.M. Police near Saskatoon, following an attack on a police officer.

Rev. Father Hughes is enjoying a visit from his son, Ray, who is an interne in the Holy Cross hospital in Calgary.—Clareholm Local Press.

The papers say that Ponoka has decided to accept the new prosperity bonds. Well, that's a poor criterion of their prospects.

Mr. and Mrs. Gwilym Evans, of Millet, and Mrs. Mrs. Dickson, of Saunders, are visiting relatives and friends in Blairmore and Coleman. They return to their homes today.

Capt. Angus Walters is having his clipper schooner, the Bluebonnet, equipped with an auxiliary engine and will in a few days head for the Grand Banks.

A fireman and an engineer, held responsible for a train wreck at Naumberg, Germany, last winter, were sentenced to fifteen and seven months, respectively.

The city of Calgary did not make their interest reduction stunt on the bonded indebtedness stick. The Canadian set-up of judges is not of the new order.—Clareholm Local Press.

Ralph C. Jessup has again assumed charge of the Nanton News. C. A. Marshall, of Saskatchewan, who had a lease of the paper for a year, withdrew when the lease expired, July 1.

Tony Canzoneri, lightweight champion, and Jimmy McLarin, of Vancouver, have agreed to a return 15-round bout to be fought at Garden's Long Island city bowl on August 27.

Steve Vargo, employee of the Hillcrest Collieries, sustained fatal injuries at the mine on Wednesday night, dying in hospital shortly after the accident. Vargo leaves a wife and family.

Rev. A. E. Larke, who is taking his annual vacation, will accompany Rev. Dr. Thomas Powell, superintendent of missions and president of the Alberta Conference of the United Church, on a tour of the Peace River country.

Rev. R. Axon, B.D., L.Th., rector of St. Martin's and St. Mark's church, Calgary, has been appointed rector of Christ church (Anglican) at Macleod, to take up his new duties in September.

Funds to cover interest on approximately \$13,000,000 of Alberta's \$160,000,000 funded debt at full contracted interest rates for five months, and halved rates for June, were available for distribution by banks on Friday.

Tom Whittingham, a printer well known to the trade all over Western Canada, and formerly manager of the Carnduff, Gazette, Kimberley Press and Vulcan Advocate, has joined the staff of the Macleod Gazette.

Mr. and Mrs. Dowson, of Medicine Hat, spent several days in The Pass during the week, and were guests at the Greenhill hotel. They returned to the Hat on Monday night, taking with them a nice catch of trout, taken from Race Horse creek.

Persons living within the boundaries of national parks, or treaty Indians, are barred from free treatment under Alberta's care of tuberculosis patients, except by arrangement between federal and provincial authorities, according to the Alberta Gazette.

FOR SALE—Light Stock Saddles. Apply to Hartley Upham, Blairmore.

Mr. K. Lonetti, who operates a hotel at Bridgetown, B.C., is visiting his parents here.

Mr. and Mrs. J. C. Atkinson, of Hillcrest, are spending their vacation with their son and daughter at Athabasca and Edmonton.

On the examination papers at the local school recently was the question: "What is the opposite of 'tough'?" One bright answer was "A sissy."

If you want reasonable and legitimate prices on printing and advertising, deal with The Enterprise. If you are looking for scab prices, go elsewhere.

The Britannia Paint Works (Siret & Co.) have the contract to do interior decoration to the new cafe to be opened in the Morency block on main street.

All teachers on the staff of the Hanna public and high schools are being re-engaged, subject to their being competent to teach the necessary subjects in 1936 and 1937.

Mr. and Mrs. P. Chardon are due to return today from a motor trip as far as Seattle, on which they were accompanied by Mr. and Mrs. Frank Chardon, of Fernie.

Pat Lenihan has been lecturing in the Drumheller district for the past week or more on the question if "Prosperity Bonds mean Poverty or Plenty to the Common People."

Editor H. T. and Mrs. Halliwell left Coleman by Tuesday afternoon's train to attend the annual convention of the Canadian Weekly Newspapers Association at Winnipeg.

Besides grasshoppers and dividends, Alberta is suffering from an additional plague—rainmakers. They all say they can make rain sufficient to satisfy the farmers of the west, but they want a scoop of money first.

The marriage of their youngest daughter, Vera Irene, to James Eddy, of Burmis, took place at the home of Mr. and Mrs. A. E. Cox, near Pincher Creek, on Thursday afternoon last, Rev. Mr. Magowan officiating.

Fifty-five Calgary merchants are said to have stated their willingness to accept prosperity certificates "if they can find an outlet for them." And, of course, Calgary has about 800 merchants.

Large numbers from Blairmore attended Sunday's midnight preview of the Louis-Schmeling fight at Cole's theatre, Bellevue. The pictures are being featured this week end, last night, tonight, and tomorrow at Cole's.

The marriage will take place at St. Michael's Catholic church at Michel on Sunday, July 12th, at 10:30 a.m., of Barney Zoratti, son of Mr. and Mrs. Peter Zoratti, of Natal, to Miss Ann Kulloski.

Charles Anderson, ranching about eight miles south of Pincher Creek, was brutally beaten by a farm hand last week, necessitating his removal to hospital, where he is recovering. Douglas Gamble, farm hand, has been arrested.

Mr. and Mrs. D. R. McKay, Mrs. S. McKay, Mrs. S. Simister and daughter Betty, motored to Great Falls on Wednesday, where they will spend about three weeks with Mr. McKay's son and daughter, Mr. J. L. McKay and Mrs. J. F. Peterson.

Fernie Elks supplied the children attending the sports there on Dominion Day with free ice cream. "It was just one of those generous acts which have made the Elks the friends of all the children in the town," comments the Fernie Free Press.
